Welcome to Math 122, Winter Quarter 2008-9! Calculus is one of the most useful of all mathematical tools, and this quarter we develop one of the basic concepts, the integral, and discuss its applications and consequences. The teaching staff welcomes you to the class, and we hope you find it interesting and challenging!

This page is for class news which is common to all students. Primarily, there is information about the exams for the quarter.

Announcements on this page are in reverse chronological order.
