

DREXEL ANALYSIS SEMINAR

April 28, 2017

12-12:50 PM, Korman 245

Speaker: Ben Grossman (Drexel)

Title: Fractional Minimal Rank

Abstract: This talk is about the fractional minimal rank of a matrix, a new tool towards finding the minimal rank of matrix patterns. We explore how this tool works, discuss a recent result from my research with Hugo, and discuss conjectures.
