

DREXEL ANALYSIS SEMINAR

November 7, 2014

3-3:50 PM, Korman 245

Speaker: Lei Cao (Drexel)

Title: Horn's problem, Vinnikov curves, and interpretations of hives

Abstract: I will talk about connections between Horn's problem and Vinnikov curves and the interpretations of hives corresponding to them respectively, based on the papers by G. Appleby & T. Whitehead and by D. Speyer.
