

DREXEL ANALYSIS SEMINAR

October 31, 2014

3-3:50 PM, Korman 245

Speaker: Hugo Woerdeman (Drexel)

Title: Grace's theorem

Abstract: I'll speak about Grace's Theorem, based on the paper *A relative Grace theorem for complex polynomials* by D. Plaumann and M. Putinar, and the classic *On a theorem of Grace* by L. Hörmander, Math. Scand. 2 (1954), 55-64.
